RI TRANSPARENCY REPORT

2020

Parquest Capital

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

- Our investment activities are guided by a responsible investment policy

PE 02.2 Describe how your organisation outlines expectations on staff and portfolio companies' approach towards ESG issues in investment activities.

At management company level:

Management of human capital:

- Sharing of carried interest by all members of the team, including associates and back office - Recruitment by co-opting - Investment process and decision shared by the whole team: associates attend investment committee - Investment monitoring: associates attend portfolio companies boards

Sustainable philosophy:

- Globally low-cost culture - Strict and formalised business ethics policies as Parquest used to be part of ING Group - Selective refuse collection in place since 2007 - Use of metro rather than taxi

At portfolio companies level:

- A historical long term approach "DNA" valuing long term growth - Management packages based on multiples rather than IRR (alignment of interests on long term value creation) and rewarding large teams including employees - An investment strategy, constant over time, which bans some sectors (gambling, pornography, weapons) as well as companies with suspected un-ethical behaviours (corruption, human rights violation, etc.) and favors highly reputable companies and management teams - Non executive directors systematically appointed at boards of portfolio companies - Regular on site visits

- Our investment activities are not guided by a responsible investment policy
- We do not have a responsible investment policy
